

SA548716

An antique silver Omega pocket watch, c1900s

Price

Sold

Item Reference: SA548716

Date of manufacture: 1900

Description

An antique silver Omega pocket watch, c1900s The watch has an Omega stem-winding movement which is working nicely. As with some early Omega movements, the signature and serial number will be underneath the dial. The movement is numbered 2098097 which dates it to 1902/03. The movement is protected by an inner hinged cover. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are Swiss .935 silver marks inside the back covers, with the early Omega stamp inside the back cover. The case has light surface marking from use and some mild bruising but overall it is in nice condition for a 1900s piece. The case back has stylish monogrammed initials. The acrylic lens is in nice condition. As was so often the case, the white enamel dial has been left blank so the retailer could add their name if required. The dial has a couple of faint hairline cracks although hardly noticeable to the naked eye. The watch has its original blued steel hands. The watch will be sent in a new presentation box.
