

SA550807

Gents 1950s Curtis Super-Automatic wrist watch

Price

Sold**Item Reference: SA550807****Date of manufacture: 1950**

Description

A gents 1950s Curtis Super-Automatic wrist watch. The watch has a 30-jewel automatic movement, a Felsa 1560, which is working nicely. The watch measures 34mm diameter excluding the winding crown and the lugs. The case is gold plated and it is in good condition with just the odd minor mark, nothing serious at all. The screw-on case back is stainless steel, there is some scratching which is probably from where a back opening tool has slipped. The lens is in good condition. The signed dial is in beautiful condition with original hands, centre seconds with pointer end and outer minute markers. A new leather strap has been fitted. The watch will be sent in a new presentation box. Free worldwide shipping
