Antique galonne style pocket watch and chain

Price

Sold**Item Reference: SA550866****Date of manufacture: 1910**

Description

An antique galonne style pocket watch and chain. The watch has a stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 48mm diameter excluding the winding stem and the loop. The case is nickel with rose gold wash detail. There is some rubbing to the wash, which is usual for cases of this design. Other than that, the case is in good condition and the engine turned detail is still nice and crisp. The watch glass has minor marking, nothing serious at all. The signed white enamel dial is in good condition. Ornate hands (the hour hand is a later replacement), a subsidiary seconds dial and outer minute markers with red 24 hour markers. This style of watch was very popular in the Scandinavian countries in the early 1900s. The watch comes with a double albert, which can be doubled up to use as a single chain. The watch will be sent in a new presentation box. Free worldwide shipping
