Description

A delightful bronze sculpture of a stretching cat. This decorative sculpture is mounted on a black figured marble base, typical of the Art Deco period. The sculpture has a good, warm patination and the condition is good. There is a small nibble to one corner of the marble base, this is clearly shown in the photographs, it's not very noticeable and does not detract from the charm of the piece. A good decorative bronze with elegant Art Deco lines to please the interior decorator and cat lover. c.1930 length: 10" (25cm) Width: 5" (13cm) Height 7" (18cm)
