Date of manufacture: 1920

Description

1920s Swiss pocket watch and chain. The watch has a Swiss 15-jewel stem-wound movement which is working nicely. The watch measures 50mm diameter excluding the winding stem and the loop. The watch has a good quality nickel case with screw-on bezel and back. There are general surface marks to the case just from use but overall the condition is very acceptable for a 1920s piece. The watch glass is in good condition. The white enamel dial is in good condition, just a little nibbling to the very centre. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a single chain, 24cm long. The watch and chain will be sent in a new presentation box. Free worldwide shipping
