Description

A gents WW1 silver wrist watch, 1915. The watch has a Swiss hand-winding movement which is working nicely. The movement is protected by an inner hinged cover upon which are some surface scratches. The watch measures 34mm diameter excluding the winding crown and the articulated lugs. The case is silver and there are hallmarks inside the two case backs for Glasgow (import mark), 1915. The case is in good condition just slight unevenness to the back but nothing serious at all. The watch glass has a little nibbling and light marking but overall is acceptable. The white enamel dial has a couple of chips to the very edge although mostly hidden by the bezel. There are a couple of faint hairline cracks. Original hands (infill has come out of the minute hand), a subsidiary seconds dial and an outer minute track. A new leather strap has been fitted. The watch will be sent in a new presentation box.
