

SA553923

1930s Swiss pocket watch and double albert

Price

Sold**Item Reference: SA553923****Date of manufacture: 1930**

Description

A 1930s Swiss pocket watch and double albert. The watch has a 15-jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has a couple of small indentations by the hinge. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and was made by the Dennison Watch Case Company. The back of the watch has the initials JM or MJ. The case is in good condition just a couple of small bruises but nothing too serious at all. The watch glass is in good condition. The white dial has some hairline cracks but they are difficult to see with the naked eye. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a double albert, with each chain measuring 21cm long including the T-bar and the clasp. The watch and chain will be sent in a new presentation box. Free worldwide shipping
