Description

A stunning, mechanical wind, cocktail watch from the Art Deco period in true Art Deco style. The pretty face of the watch is octagonal in shape, and has neat blue steel hands and black numerals, set against a pale ivory coloured face. The watch is surrounded with sparkly paste stones set in a lovely pattern (see images). The side of the watch is marked .925 in an oval shape with a continental stamp (we have been unable to identify this stamp), the back is also marked .925 in two places on the back near to the strap. There is a serial number on the back: 781511. The strap is black rope style fabric and has a lever style clasp which is marked metal and works well. The watch is in good working order. It is an extremely pretty watch. Condition: The overall appearance of this watch is stunning, including the lovely clean face and the sparkly paste stones. The length of the watch including the strap is 6 1/2 inches in total. The length of the face including the paste setting is: 1 3/4 inches. The width of the watch inclusive of winder is 0.58 inches.
