Description

Good set of 8 Victorian copper measures all with the same lead seal with initials H. R and a shield inbetween. The measures are all spun with square profile handles. Sizes; 1/8th of a Gill up to 1 Gallon. They have been sympathetically cleaned so do still have a good patination. The condition is pretty good, some are better than others depending on their use. Just a nice complete original set. CIRCA; 1880 - 1890
