

SA556757

An antique silver centre seconds chronograph.

Price

Sold

Item Reference: SA556757

Date of manufacture: 1900

Description

An antique silver centre seconds chronograph. The watch has a stem-winding three quarter plate movement which is working well. The movement is protected by an inner hinged cover. The watch measures 53.3mm diameter excluding the winding stem and the loop. The case is silver and there are Swiss .935 silver marks inside both of the case backs. The case has a light surface marking from use and a couple of small "dings" to the back but overall it is in nice condition for a 1900s piece. The watch glass has a small nibble to the bottom outer edge although hardly noticeable. The enamel dial has a faint hairline crack at 12 o'clock but otherwise it is in nice condition. Gold hands (initially set by way of the pin set mechanism), a blue steel chronograph hand which runs constantly as the start stop button has been disconnected. The watch will be sent in a new presentation box. Price includes worldwide postage.
