Description

A fine, fully serviced pocket watch in silver by Omega of Switzerland with the 1900 Grand Prix dust plate under the outer hinged cover. In very good order and quite unusual in that it retains an outer protective desk stand / case. The case has a silver front with velvet interior. This is quite a good size example not to be confused with the smaller ones for sale! The measurements shown below are for the watch. The outer case measurements are 85mm tall x 22mm thick x 78mm width. Would make a lovely gift.

Internal Ref: Omega Silver Watch
