Description

This antique burr walnut bow fronted cabinet on chest is a very useful item of furniture. It would have originally been made for use in the bedroom, but these days people are using this sort of thing for use in a living or dining room. It could be used for a small drinks cabinet or just general storage. This piece has some great features. The top section has cross banded cupboards, reeded canted corners & one shelf inside. There is a pull out brushing slide below that & four graduated drawers below, sitting on bracket feet. The cross banded drawers are finely dovetailed & have original brass handles, escutcheons & locks. The top drawer is lined with old baize, with divisions. The baize is a bit worn out & I think it needs to be all taken out or relined. This cabinet has a lovely mellow colour & is in good condition. It's just been French polished & dates from around the 1920's period. Width - 29 inches, 73 cm Depth - 19 inches, 48 cm Height - 60 inches, 151 cm
