Description

Antique 1908 silver Waltham pocket watch. The watch has a good quality stem-winding movement with 15 jewels, jewelled pallets and damascening, all major extra expense at the time of manufacture. The movement is a grade 620 working well. It is fully signed and the serial number 14655068 dates it back to 1905. The movement is protected by an inner hinged cover. The watch itself measures 50.6mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside both case backs for Birmingham 1908 with a maker's mark for Aaron Dennison who was heavily involved in Waltham before emigrating to the UK to set up a watch case manufacturing company. The case has light surface marking from use and the odd mild bruise to the back but overall it is in nice condition for a 1908 watch. The acrylic lens is in nice condition. The white enamel dial is signed Waltham and is in nice condition. The watch has its original blued steel hands. The watch will be sent in a new presentation box. Price includes worldwide postage.
