Description

A 1920s silver half hunter selezi pocket watch. The watch has a stem-winding movement which is working nicely. The movement is stamped Selezi, 15 jewels, Swiss made. The movement is protected by an inner hinged cover. The watch itself measures 52.5mm diameter excluding the winding stem and the loop. The case is silver and has Birmingham hallmarks for 1920 with the case makers mark for the Dennison Watch Case Company. The case has light surface marks from use and the case back has mild bruising but overall it is in nice condition for a 1920s piece. The front has Roman numerals filled with dark blue enamel set around a small lens. The winding crown pushes in to release the front cover. Inside there is a glass lens which is in nice condition. The dial is in nice condition with only a couple of tiny nibbles to the centre hole. The watch has its original blued steel hands, which has the special half hunter hour hand so even when the front cover is closed, the hands can be distinguished between and the time read. The watch will be sent in a new presentation box. Price includes worldwide postage.
