Dimensions

Height = 44 cm (17.3")

Width = 16 cm (6.3")

Depth = 16 cm (6.3")

Description

Circa 1910-1920 this fine quality glass lamp may once have been a candlestick or vase converted to a lamp many years ago. It has been completely rewired to UK specifications using silver flex cable and fitted with an online switch, and it will take any standard UK lampshade. The lamp measures approximately 40cm in height to the lamp holder and the base is approximately 16cm in diameter. It is a solid, heavy lamp made in clear and opaque glass creating a 'tulip' shape, and still has the excellent quality original crystal lustres around. We have replaced the brass pins holding the lustres as the old ones were rusty and broken. Postage and packing within the UK mainland only is included in the price and for remote parts of the UK or abroad, please contact us for a delivery quote.
