Description

For your consideration is this very stylish Art Deco walnut clock. Originating from England and dating to the 1930s this clock can't be mistaken for any other era can it. The silvered dial which is in excellent condition is the back drop to very iconic styled Art Deco numerals. The case is solid and made from walnut and with very simple chrome accents to the circular feet and the bezel the angular case gives a simple but classy feel. Wind up movement so easy to maintain. We've had this clock fully serviced by an horologist and the case has been re polished so the whole piece is in great condition and ready to take pride of place. Ideal for mantle areas, but not so large it wouldn't work really well on a desk.
