Description

Small antique French marble top cabinet with many different woods involved. It's predominately mahogany & kingwood, however there are many other more exotic woods set into it in the form of inlays, parquetry & marquetry. This cabinet is all in good condition including the marble top. The gilt bronze mounts are very good quality & I particularly like the rams heads mounts on the tops. The floral marquetry panels have a great pattern too. This piece dates to around the 1920's period & is fine quality. Please enlarge all the images to appreciate the many fine rare woods & other fine details. Width – 31", 77 cm Depth – 17", 42 cm Height – 29", 74 cm
