Description

An antique silver Syren full hunter pocket watch, 1919. The watch has a signed stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the three covers for London (import mark), 1919. The engine turned detail to the front and back of the case is still nice and crisp, and there is a vacant cartouche to the front. There is some unevenness to the front and back. The winding crown pushes in to open the front cover. Inside, there is an acrylic lens which is in good condition. The white dial, with sunken centre, is in good condition with just a short faint hairline crack on number 11 but it is barely visible to the naked eye. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box. Free worldwide shipping
