

SA564298

Antique silver fusee pocket watch, Sunderland

Price

Sold**Item Reference: SA564298****Date of manufacture: 1900**

Description

An antique silver Improved Patent fusee pocket watch. The watch has a key-wound fusee (chain driven) movement which is working nicely. The movement is signed with the name of the watch maker, H Berg, a Jewish watch maker from Sunderland. The movement is protected by an inner fitted cover. The watch measures 57mm diameter excluding the stem and the loop. The case is silver and there are hallmarks in both of the case backs for Chester 1900. The case maker's mark is most likely to be from the silversmith Jesse Hallam. The case is in good condition with just the odd minor mark, nothing serious at all. The signed dial is in good condition, just a shade of darkening, but overall very acceptable. The watch will be sent in a new presentation box. Free worldwide shipping
