Dimensions

Height = 32 cm (12.6")

Width = 22 cm (8.7")

Depth = 22 cm (8.7")

Description

Circa 1920-1930 this set of four glass drop lights have been rewired to UK specifications and fitted with new candle tubes. They measure approximately 32cm in length (from the ornate brass arches at the top, to the bottom of the longest drop) and across the widest part they measure 22cm. There are two rows of drops around the light and at the bottom is an extra long faceted drop. At the top of each light are swags of glass beads linked to each decorative arch and a long faceted drop at each point. We had new mirrors cut to fit each light because the old ones were tarnished and damaged in places. The photographs show the cable up at the top, but this will be hidden when the lights are installed. The lights can be viewed in Surrey or South West London by appointment as we no longer sell through a retail outlet. Postage and packing is included for the UK mainland only, but for remote parts or abroad please contact us for a delivery quote.
