Description

1920s Swiss pocket watch and chain. The watch has a stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has some scratching where it has been opened in the past. The watch measures 50mm diameter excluding the winding stem and the loop. The case is nickel. The case back has engine turned detail and a vacant cartouche to the centre. There is a little unevenness and the odd mark but overall very acceptable for a 1920s piece. The acrylic lens is in good condition. The dial is in very good condition with Breguet style hands, a subsidiary seconds dial and an outer minute track with 24 hour numbers. The watch comes with a single albert, 25cm long including the T-bar and the clasp. The watch and chain will be sent in a new presentation box. Price includes worldwide postage.
