Description

Gents 1940s Omega wrist watch. The watch has a 17-jewel hand-winding movement, calibre 283, which is working nicely. The movement is fully signed and the serial number 11,818,208 dates it back to the second half of the 1940s. The watch measures 33mm diameter excluding the winding crown and the lugs. The case is stainless steel and it is in good condition for a 1940s piece with just general light surface marks. The winding crown is a later replacement. The inside of the case back has the Omega triangular stamp together with the case reference 2391-11 which was in production from 1946 to 1951. The lens is in good condition. The signed dial has a little marking but overall is in good condition, and has dauphine shaped hands, centre seconds and an outer minute track. A new leather strap has been fitted. The watch will be sent in a new presentation box. Free worldwide shipping
