Description

Circa 1910 a pair of elegant cut glass wall lights with the original drops. They have beautiful elongated candle cups and silver plated finials under the central glass cup. They measure approximately 31cm across and from the top of the candle tube to the bottom drop it is about 32cm. We have priced them as a single light only to reflect the fact the other one has a small thin crack in the glass deep inside one candle cup which has been made secure by a glass specialist and once in position, cannot be seen. There are two purpose made drill holes on the back plate for easy fitting to a wall. Price includes postage and packing within the UK mainland only and for remote parts of the UK or abroad please contact us for a delivery quote.
