Description

WW2 era Omega pocket watch with chain. The watch has a stem-winding movement, 38.5L T1, which is working nicely. The movement is signed Omega and the serial number 9,526,825 dates it back to the first half of the 1940s. The movement is protected by an inner hinged cover. The watch measures 47mm diameter excluding the stem and the loop. The case is nickel and it is in good condition, just a couple of pin prick "dings" to the back but nothing serious at all. The acrylic lens is in good condition. The signed dial is in good condition and has Breguet style hands, a subsidiary seconds dial and an outer minute track. The watch comes with a single chain, 31cm long including the T-bar and the clasp. The watch and chain will be sent in a new presentation box. Free UK and worldwide shipping
