Date of manufacture: 1940

Description

1940s Smith pocket watch, made in England. The watch has a stem-winding movement which is working nicely. The watch measures 50mm diameter excluding the winding crown and the loop. The case is chrome plated onto brass. There are patches where the chrome has worn through. The lens is in good condition. The signed dial has a painted finish, there is some marking if you look closely. Breguet style hands (the very tip looks to have come off the hour hand but not too noticeable), a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box.
