Date of manufacture: 1930

Description

Gents 9ct gold wrist watch, 1939. The watch has a hand-winding movement, calibre 220 from A Michel of Grenchen, Switzerland, which is working nicely. The watch measures 31mm diameter excluding the winding crown and the lugs. The case is 9 carat gold and there are hallmarks inside the case back for Edinburgh 1939 with a maker's mark for the British Watch Case Company. The case is in good condition, just a small "ding" to the case back but not too serious. The lens is in good condition. The enamel dial has a hairline crack running down from number 10 but it is faint and difficult to see with the naked eye. Blued steel hands, a subsidiary seconds dial and an outer minute track. A new leather strap has been fitted. The watch will be sent in a new presentation box. Free worldwide shipping
