Description

A 1920s silver pocket watch originally retailed by Harris Stone of Leeds. The watch has a Swiss 15-jewel key-winding movement which is working nicely. The movement would of had an inner fitted cover although this has gone missing at some stage of its life. The watch itself measures 56mm diameter excluding the stem and the loop. The case is silver and there are London import marks in the case backs for 1925, with the importers mark for George Stockwell, the case is also stamped 2.OZ which is a good quality heavy case. The case is in good condition with just minor surface marks from use. The acrylic lens is in nice condition. The signed dial is in nice condition. The watch has its original gold hands and blued steel sub second hand. The watch will be sent in a new presentation box. Price includes worldwide postage.
