Description

A vintage 1930s Silver pocket watch & chain. The watch has a nice quality jewelled stem-winding movement, which is working well. The movement is protected by an inner hinged cover. The watch itself measures 47.2mm diameter excluding the winding stem and the loop. The case is silver and has continental silver marks. The case has nicely decorated boarder to the front and back bezels. The case has light surface marking from use and some mild bruising to the back but overall it is in nice condition for a 1930s piece. The glass lens is in nice condition. The silvered dial is in its original subtly textured finish and it is in nice condition with just a little marking. The shaped hands are a particularly charming feature. The watch comes on a silver albert chain which measures 25.5cm including the T bar and clasp. The T bar and each link of the chain have the lion passant mark. The chain weighs 16.5 grams. The watch & chain will be sent in a new presentation box.
