

SA569689

Antique gun metal pocket watch

Price

Sold**Item Reference: SA569689****Date of manufacture: 1910**

Description

An antique gun metal pocket watch. The watch has a stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch itself measures 48mm diameter excluding the winding crown and the lugs. The case is gun metal and it still has its shiny polished finish which we do not see very often. There is some marking to the hinged back but nothing too serious at all. The contrasting gold embellishments are a handsome feature. The acrylic lens is in good condition. The dial is also in good condition and has its original hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box. Free worldwide shipping
