Description

Antique Waltham half hunter pocket watch. The watch has a stem-winding movement, Traveler grade, which is working nicely. The movement is fully signed and the serial number 14,405,854 dates it back to around 1905. The movement is protected by an inner hinged cover. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is the 10ct gold plated Moon model from the Dennison Watch Case Company, a prolific manufacturer of cases for various watch manufacturers. The case has the odd small mark but nothing serious at all, overall the condition is good. The front cover has a small lens surrounded by enamel filled Roman numerals. The winding crown pushes in to open the front cover. Inside there is an acrylic lens which is in good condition. The dial is in beautiful condition and has gold coloured hands including the special half hunter hour hand so the time can be read when the front cover is closed. The watch will be sent in a new presentation box. Free worldwide shipping
