Sold

Item Reference: SA572184

Date of manufacture: 1950

Dimensions

Width = 3.5 cm (1.4")

Description

A 1959 Universal Geneve Polerouter Jet automatic gents wristwatch. A high quality 28 Jewel mechanism with clever microtor automatic wind to allow the slim case design. Mechanism ref 215-9 and the original winding crown. A stainless steel case with elegant lugs and Gold dial indexes and dot markers with crosshair and gilt hands in superb original condition. Created by design legend Gerald Genta (Patek and Audemars Piguet fame) in 1954 for pilots flying over the Arctic circle which needed timekeeping excellence and anti-magnetic properties. The Polerouter Jet was more expensive than a Rolex Explorer at the time and this is the best condition example on the market direct from a private collection. From Kembery Antique Clocks Ltd you can expect a genuine wristwatch supplied with a presentation box that is in full working order and sold with 12 months guarantee. Free UK tracked, insured and signed for delivery on a day of your choice, International deliveries please contact us for a quote.
