Date of manufacture: 1900

Description

Antique Swiss silver pocket watch. The watch has a stem-winding pin set movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 52.4mm diameter excluding the stem and the loop. The case is silver and has Swiss .935 silver marks. The case has light surface marks from use and a couple of small "dings" to the back but overall it is in nice condition for a 1900s watch. The acrylic lens is in nice condition. The white enamel dial is in nice condition. The watch has its original blued steel hands. The watch will be sent in a new presentation box. Price includes worldwide postage
