

SA574259

Antique silver pocket watch with chain and swivel

Price

Sold**Item Reference: SA574259****Date of manufacture: 1900**

Description

The watch has an English stem-winding movement, with diamond end stone, which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the case back for Chester 1902. The front of the case is in good condition while the hinged case back has a "ding" and some unevenness. The later acrylic watch lens is in good condition. The dial has blued steel hands, a subsidiary seconds dial and an outer minute track. There is a fairly faint hairline crack running from the subsidiary seconds dial up to number 11. The watch comes with a hallmarked silver chain, 34cm long including the T-bar and the chain. There is also a shorter chain upon which hangs an interesting swivel fob. The watch and chain will be sent in a new presentation box. Free worldwide shipping
