Description

An impressive Georgian mahogany longcase clock with rare feature of centre seconds. A swan-neck hood pediment with brass patterae and central brass finial. Fretwork to the hood with fluted brass capped hood columns. A raised plinth panel with choice flame veneers to the case. An early example of a painted dial with raised gilt corner decorations and Georgian lady in the arch cartouche. Centre seconds hand and a date aperture. An 8-day duration mechanism striking the hours on a bell. John Wilkes of Evesham is recorded in Baillies' 'Watchmakers and Clockmakers of The World' book as working circa 1795. From Kembery Antique Clocks Ltd. you can expect a genuine antique longcase clock that is in full working order and sold with 12 months guarantee.
