Sold

Item Reference: SA574608

Date of manufacture: 1870

Description

Antique fusee silver pocket watch by G Heitzman Bloxwich. The signed fusee movement is working well and a winding key is included although it is not original to the watch. The movement has a diamond end stone. The movement is signed Geo Heitzman, Bloxwich and numbered 41876. The movement is protected by an inner fitted cover. The watch itself measures 56mm diameter excluding the stem and the loop. The case is silver and there are hallmarks inside the case backs for Chester 1875 with the makers mark for William Jee. The case also has the same serial number as the movement. The case is in good condition with just light surface marking from use. The inner case back has some light surface marking. The watch glass is in nice condition. The enamel dial has a faint hairline crack below the sub seconds dial although hardly noticeable to the naked eye but otherwise it is in nice condition. The watch has rose gold coloured hands. The watch will be sent in a new presentation box. Price includes worldwide postage
