

SA574652

1920s nickel pocket watch and chain

Price

Sold**Item Reference: SA574652****Date of manufacture: 1920**

Description

The watch has a 15-jewel Swiss stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has some scratching where it has been opened in the past and tools have slipped. The watch measures 50mm diameter excluding the winding stem and the loop. The case is nickel plated and it has aged nicely with some of the brass base metal showing from years of use. The case is in good condition with just surface marking, nothing too serious at all. The watch glass has minor marking but overall very acceptable. The white dial has blued steel hands (later minute hand), a subsidiary seconds dial and outer minute track. The watch comes with a single albert, 27cm long including the clasps. The watch and chain will come in a new presentation box. Free worldwide shipping
