It is finely modelled in ormolu (finely gilded bronze) mounted with exquisite Sèvres style porcelain with an elegant green ground. The dial is porcelain, delicately painted with flowers, butterflies and a bow. The rear door is glazed with convex frosted glass. Please note that this type of clock does not have a glazed front bezel. The French movement is of high quality and has the Japy Frères mark on the backplate. It is in excellent clean and running condition having been fully overhauled by our clockmaker. Pendulum is an old replacement. It runs for 8 days and strikes the hours and halves on a bell. We have a video available of the clock running! Condition of the case is very good, the original gilding is beautifully clean and bright with some occasional tarnish or discolouration. The porcelain is also in excellent condition with some loss to the over-glaze gilt decoration and applied porce...
