Sold**Item Reference: SA57524****Date of manufacture: 1800**

Description

A handsome tortoise shell magnifying glass with the interior horn rimmed magnifier being held in place with solid gold rivets. The glass is good condition with an excellent magnification and very usable today. The shell has a wonderfully glossy patina showing off the natural shell, having been professionally re-polished. Dating to around 1840, it remains in excellent condition measuring 2 3/4" x 2 1/4" when closed up. Item ID: 31497
