Description

For your consideration is this rare model clock made by the English clock makers Smiths. This clock has a wonderful dial face, and runs on a 8-day movement time piece which has been serviced and works well. The dial is suspended between two Belisha beacons (so named after the then Minister of Transport Leslie Hore-Belisha first appeared in 1934. The beacons have catalin bakelite cherry red accents to the top. Quite a heavy clock for it's size. Condition is good with some ageing to the chrome in parts, nothing unsightly but mentioned for accuracy. We currently have over 150 original Art Deco in our inventory, all serviced which you can view here www.artdecoworld.co.uk.
