

SA576459

WW1 era Jupiter silver trench watch

Price

Sold**Item Reference: SA576459****Date of manufacture: 1910**

Description

WW1 era Jupiter silver trench watch. The watch has a hand-winding movement, identified as probably being a Cortébert, which is working nicely. Cortébert registered the Jupiter name in 1913 so this ties up nicely with the movement identification. The watch measures 35mm diameter excluding the winding crown and the articulated lugs. The case is silver and there are hallmarks for .935 silver inside both of the case backs. The case is in good condition just some unevenness to the back but overall very acceptable for a watch from the WW1 era. The glass lens is in good condition. The signed dial has a small amount of damage by number 2 but you have to look closely to see it. Original hands, a subsidiary seconds dial and an outer minute track. A new leather strap has been fitted. The watch will be sent in a new presentation box. Free worldwide shipping
