Description

Antique Waltham Earl pocket watch, 1915. The watch has a stem-winding movement, Earl grade, which is working nicely. The Earl grade was made in low numbers with a total production of just 3,600. This particular movement has the serial number 20,408,358 which dates it back to 1915, the last year of production for the Earl grade. The movement is protected by an inner hinged cover. The watch measures 46mm diameter excluding the winding stem and the loop. The case is gold plated and there are a couple of shallow indentations to the back but they are fairly small. The watch glass is in lovely condition. The signed dial is in very nice condition and has blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box. Free worldwide shipping
