Description

Gents 1940s Delbana wristwatch. The Delbana Watch Company was founded in 1948, and was based in Grenchen, Switzerland. This particular watch has a Swiss 15-jewel hand-winding movement which is working nicely. The watch measures 34mm diameter excluding the winding crown and the very shapely lugs. The case is nickel, it probably would have been plated originally but has been professionally polished back at some stage in its life. The stainless steel case back is signed with the Delbana name. The lens is in good condition. The signed dial is in its original finish... there is some light freckling if you look closely but overall it has a super appearance with lots of character. A new strap has been fitted. The watch will be sent in a new presentation box. Free worldwide shipping
