Description

This Victorian yew wood captain's chair was made circa 1880. It is very rare to have a captain's chair (these were often called smokers bow chairs in the past) made in yew wood. The solid elm saddle seat is very comfortable, and you can sit on it for long periods. The bow shaped back is made in solid yew, a very interesting material and quite hard to work with, hence it was not always used. The ring turned legs solid yew legs are joined by the desirable double cross stretcher. The stretchers help makes this a solid and strong chair. 66cms at widest point to outer edge of had grip(26ins) 52cms deep (20 1/2ins) 76.5cms high (29 1/2ins) 46cms seat height (18ins) All dimensions are approximate We can arrange delivery nationwide or for it to be shipped overseas This item carries the Hingstons Antiques product guarantee plate.
