

SA578657

Antique silver pocket watch,
circa 1910s

Price

Sold

Item Reference: SA578657

Date of manufacture: 1910

Description

The watch has a stem-winding movement which is working nicely. The movement is protected by an inner hinged cover upon which are details of the movement. There is a small "ding" to this inner cover. The watch measures 51mm diameter excluding the winding stem and the loop. The case is silver and there are Continental hallmarks for 800 silver inside both of the case backs. The hinged case back has engine turned details and a central vacant cartouche. The case back does have some unevenness and marking. The acrylic lens is in good condition. The dial has lovely clear numbers, ornate pin-set hands (popular in the Scandinavian countries at the beginning of the 20th Century) and nice bold outer minute markers. The watch will be sent in a new presentation box. Free worldwide shipping
