

SA579185

Antique pocket watch and chain

Price

Sold**Item Reference: SA579185****Date of manufacture: 1930**

Description

Antique pocket watch and chain. The watch has a Swiss stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has some marking and scratching. The watch measures 52mm diameter excluding the winding stem and the loop. The case is nickel and it is in good condition with just a small "ding" to the back. The engine turned detail is still nice and crisp and there is a vacant cartouche. The glass lens is in good condition. The dial has unusually large numbers and robust blued steel hands making it a very easy dial to read. The dial is in good condition and also has a subsidiary seconds dial and an outer minute track with 24 hour markings. The watch comes with a single chain, 25cm long including the T-bar and the clasp. The watch and chain will be sent in a new presentation box. Free worldwide shipping
