Description

Antique Elgin pocket watch, 1901. The watch has a stem-winding movement, grade 210, which is working nicely. The handsomely patterned movement is fully signed and the serial number 9,167,797 dates it back to around 1901. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold filled and it is beautifully decorated and in very nice condition. The acrylic lens is in good condition. The signed dial has a good look with delicate hands, a subsidiary seconds dial and an outer minute track. There are three or four short faint hairline cracks but not too obvious to the naked eye. The watch will be sent in a new presentation box. Free worldwide shipping
