Description

Antique Waltham Royal silver full hunter pocket watch and chain. The watch has a stem-winding movement, Royal grade, which is working nicely. The nicely patterned movement is fully signed and the serial number 23,016,637 dates it back to around 1919. The movement is protected by an inner hinged cover upon which is scratched a previous owner's initials and a 1941 date. The watch measures 52mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the covers for Birmingham 1912 with a case maker's mark for Aaron Dennison, a prolific case manufacturer who made the majority of cases for Waltham UK. The case has some light surface marks and gentle unevenness. The winding crown pushes in to open the front cover. Inside there is a glass lens which is in good condition. The signed double sunk dial is in lovely condition with blued steel hands, subsidiary seconds dial and outer minute markers. The watch comes with an heavy antique silver albert which measures 33cm long including the T-bar and the chain, and also a silver fob. The watch and chain will be sent in a new presentation box.
