Description

Gents large 1950s Camy wristwatch. The watch has a Swiss 15-jewel hand-winding movement which is working nicely. The watch is a good size at 36.5mm diameter excluding the winding crown and the handsomely shaped lugs. The case is gold plated and the case back is stainless steel. There is a little rubbing and marking to the case but overall the condition is very nice for a 1950s piece. The lens is in good condition. The signed dial has its original hands, centre seconds hand and outer minute markers. The dial is in its original finish, there is light marking across the dial but it only shows at certain angles. A new leather strap has been fitted. The watch will be sent in a new presentation box. Free worldwide shipping
