Description

Gents Omega Seamaster automatic wrist watch, 1969. The watch has a calibre 552 24-jewel automatic movement which is working nicely. The movement is signed with the Omega name and the serial number 28,677,223 dates it back to 1969. The watch measures 35mm diameter excluding the winding crown and the lugs. The case is gold capped which means that a luxurious layer of 14ct gold is overlayed onto a stainless steel case. The case is in good condition. The winding crown has the Omega logo. The screw-on case back has the raised Seamaster logo. The inside of the back has the Omega triangular stamp together with the case reference 165.067 which is correct for the calibre 552 movement. The Omega lens is in good condition. The signed dial is in lovely condition with original hands, centre seconds and outer minute markers. A later leather strap has been fitted. The watch will be sent in a new presentation box. Free worldwide shipping
