Description

An antique silver full hunter pocket watch. The watch has a key-winding movement which is working well. A winding key is included. The movement is protected by an inner hinged cover which is engraved with the name of a previous owner to the inside. The watch measures 52mm diameter excluding the stem and the loop. The case is made of 'Fine Silver' which is 99.9% pure, as opposed to sterling which is 92.5%. The case has light surface marking from use and the odd small "ding" but overall it is in nice condition for a 1900s piece. The small button on the top of the stem is pushed to release the catch for the front cover. The watch glass is in nice condition. The white enamel dial has faint traces of the original retails name Webster London. The double sunk dial has a faint hairline crack between 7 & 8 o'clock but otherwise it is in nice condition. The watch has its original blued steel hands. Price includes worldwide postage
